EDUCATION

Bihar Engineering University Patna

B.Tech - Electronics and Communication Engineering

Patna, Bihar, India

Dec 2020 - Aug 2024

Satyam International School Patna

Senior Secondary - CBSE - Science(PCM)

Patna, Bihar, India

May 2018 - Jul 2020

RPS Public School Patna

Secondary - CBSE

Patna, Bihar, India

Apr 2017 - May 2018

TECHNICAL SKILLS

Programming Languages.: C, C++, HTML, CSS, Bootstrap, JavaScript

Core Electronics: Digital Circuits, Analog Circuits, Network Theory, Control System, Electronics Devices and Circuits, Digital CMOS VLSI Design, Signal and Systems, Communication (Analog and Digital), Electromagnetic Theory

Data Analysis and Visualization: Advanced Excel (Pivot Tables, Power Query, XLOOKUP, Dashboard), MySQL (Joins, Window Functions, CTEs), Tableau (Dashboards, Calculated Fields), Python (NumPy, Pandas, Matplotlib, Plotly, Seaborn), Power BI (Power Query, DAX, Data Modeling, Interactive Dashboards), Statistics (Mean, Median, Standard Deviation, Hypothesis Testing)

Tools: Jupyter Notebook, VS Code, Git, GitHub, Tableau, Power BI, Docker, MS Excel, MS Word, MS PowerPoint

Soft Skills: Teamwork, Strategy, Communication, Leadership, Presentation Skills , Convincing People

EXPERIENCE

Summer Training and Internship

From E and ICT Academy, IIT Kanpur

May 2022 - Jun 2022

- Did Training and Internship on Full Stack Web Development.
- From this Training and Internship, I learned HTML, CSS, BOOTSTRAP, JAVASCRIPT, AJAX, PHP and MySQL. In this Training and Internship I worked on Project Online Voting System (Dynamic Website).
- I used Front-end technologies-HTML, CSS, BOOTSTRAP for Designing Front-end of Website, Developed Backend-Part using PHP and Designed Database using MySQL, I used Javascript for implementing Validations in Website and used AJAX to read or send data on the server asynchronously (without refreshing the page).

PROJECTS

- **E-Commerce Sales Analysis** - Analyzed 10,000+ sales records using Excel, MySQL, Python and Power BI. Built interactive dashboards and generated business insights.
- **HR Analytics Dashboard** - Analyzed employee attrition and workforce data using Excel, Python and Tableau. Developed KPI dashboards for HR analytics.
- **Blinkit Grocery Sales Analysis** - Performed sales and customer analysis using MySQL, Python and Power BI. Created dashboards to track sales, profit, and outlet performance.
- **Netflix Data Analysis** - Performed exploratory data analysis using Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly). Visualized content trends and generated analytical insights.

CERTIFICATIONS

- Sensor Technologies : Physics Fabrication and Circuits From NPTEL
- Developing Soft Skills and Personality From NPTEL
- C Programming Language From Great Learning
- C++ From Great Learning

ACHIEVEMENTS AND AWARDS

- Meritorious Student Encouragement Award – Award For Performance in Semester Examination

OTHERS

- **Extra-Curricular Activities** – Secretary of College Coding Club.
- **Languages Known** – English and Hindi.
